Letter from State Senator Nicole Poore

NICOLE POORE
STATE SENATOR
12th District

SENATE
STATE OF DELAWARE
411 LEGISLATIVE AVENUE
DOVER, DELAWARE 19901

June 18, 2015

Secretary David Small
Delaware Department of Natural Resources and Environmental Control
89 Kings Highway
Dover, DE 19901

Dear Secretary Small:

I'm writing to give my support for Green Recovery Technologies application for a Coastal Zone permit. I recently visited the facility and came away impressed and convinced that Green Recovery Technologies is the kind of innovative and environmentally responsible company we want in Delaware.

I do not offer this support lightly because I know how important the Coastal Zone Act has been for our state since 1971. But after my visit to the facility, I believe Green Recovery Technologies has taken aggressive measures to justify receiving a Coastal Zone permit and I fully support its application.

During my visit to the facility, it was apparent to me that Green Recovery will have minimal impact on the surrounding area. The feedstock brought to the plant and the protein and biofuel that will be shipped from the plant is essentially odor free. All appear to be safely secured for transportation and daily truck traffic will be minimal.

To me, GRT is an excellent example of a manufacturing facility that is innovative, while also being a good steward of the environment. I urge you to approve its application for a Coastal Zone permit.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Nicole Poore".

Nicole Poore
State Senator
12th District

NP/se
